

I MADE ANANTA WIJAYA

Badung, Bali | ananjack35@gmail.com | +62 878-1699-2590 | [LinkedIn](#) | [Certificate](#) | Portofolio

A fresh Informatics graduate from INSTIKI with a strong interest in Data Science, Artificial Intelligence, and Machine Learning. Experienced in data analysis, forecasting, and computer vision projects involving data collection and processing, data annotation, preprocessing, Exploratory Data Analysis (EDA), pipeline development, modeling, evaluation, and research documentation. Proficient in Python, SQL, Google Colab, Roboflow, Git, and GitHub. Possesses strong analytical skills, attention to detail, a willingness to learn, and the ability to work both independently and collaboratively. Eager to contribute to processing and optimizing data to generate insights that support business decision-making.

EDUCATION

Bootcamp – Dibimbing.id, Data Science AI & Machine learning Juni 2026 – Present

- Score: -

Bachelor of Informatics, INSTIKI September 2022 – February 2026

- GPA: 3.91/4.00 (144 credits)

High School Diploma – SMA N 1 KUTA, Social Sciences July 2019 – May 2022

- Score: 86,23
-

WORKING EXPERIENCES

Freelance, Invoice Data Entry, Midori Collection June 2023 – Present

- Prepared monthly supplier invoice reports for a villa's accounting department by recording transaction dates, invoice numbers, item descriptions, and prices.
- Verified data completeness and calculated total invoice amounts to ensure accurate reporting before submission to the accounting department.

Freelance, Digital Asset Processing, Nusaheritage.id February 2026 – April 2026

- Planned the project workflow using mind maps, covering 3D data creation, data processing, metadata preparation, and documentation.
- Created and cleaned 3D models of Balinese statues using Polycam, then refined the models and added display bases using Blender.
- Compiled structured metadata containing statue photographs, names, descriptions, and categories, and prepared data processing reports.
- Generated automated image descriptions using BLIP from Hugging Face and Gemini to support documentation and catalog development.
- Designed a visual catalog of Balinese statues using Canva based on the collected images and metadata.

Internship Web Developer, Kayana Creative July 2024 – September 2024

- Designed UI/UX layouts for an e-commerce website to improve responsiveness, usability, and user experience.
 - Developed a full-stack e-commerce website using Laravel, including product pages, user interface components, and core website features.
 - Assisted in implementing website structure to support user flow, product catalog management, and content organization.
-

PROJECT

Thesis, Statues Bali Object Detection April 2025 – January 2026

- Conducted field observations and documented Balinese stone statues across Denpasar, Badung, Gianyar, and Bangli, including visits to Taman Ayun Temple, Jagatnatha Temple, the Bali Cultural Heritage Preservation Center, Batuan Village Temple, Kehen Temple, and several sculpture shops.
- Built a dataset from 240 three-dimensional statue models, converted them into 8,400 two-dimensional images, and performed annotation and data augmentation using Roboflow, expanding the dataset to 14,280 images across eight categories.

- Developed, trained, and evaluated a YOLOv12n object detection model using 50-, 100-, and 120-epoch scenarios, achieving the best results at 100 epochs with 92.8% Precision, 91.9% Recall, 96.5% mAP50, and 82.0% mAP50–95, followed by testing on unseen images and videos.

Personal Project, Bali Destination Chatbot

September 2025

- Developed an AI-powered tourism chatbot using Google Gemini and LangChain, with a Streamlit interface and SQLite database to manage information on attractions, hotels, restaurants, cultural events, and visitor reviews.
- Provided search and recommendation features based on user preferences, including location, attraction category, ticket price, hotel budget, rating, restaurant type, and cultural events.
- Generated relevant conversational responses and personalized recommendations, while supporting database updates through CSV uploads for each available data category.

ORGANIZATIONAL EXPERIENCES

Public Relation Coordinator, Sekha Truna Dharma Kerthi

October 2024 – October 2026

- Recorded and updated data of new youth members in the local Banjar community.
- Contributed to the distribution of Ogoh-Ogoh event uniforms to community members.
- Distributed official community notices, including obligation and penalty-related letters, to relevant members.

Public Relations Division Member, Artspirasi 9 INSTIKI

February 2024

- Searched for and contacted media partners to support event publication and audience reach.
- Distributed partnership letters and invitations to relevant external parties.

Vice Head of Equipment Division, Road to DEVFEST, IDC x GDSC INSTIKI

October 2023

- Coordinated event logistics and equipment preparation to support smooth event operations.
- Assisted backstage technical and operational needs during the event.

Head of Inventory and Field Coordinator, Teater TERAS

June 2020 – June 2021

- Coordinated equipment needs for organizational activities, including anniversaries, inaugurations, and theater competitions.
- Prepared, managed, and took responsibility for theater inventory and equipment during events.
- Supported technical and logistical preparation to ensure organizational events ran smoothly.

HONORS & AWARDS

Top 30, IDEASI 2024, INBIS INSTIKI

January 2024

Selected as one of the Top 30 participants in the IDEASI 2024 business competition through a business idea focused on eco-friendly briquettes made from corn cobs.

2nd Winner, Free Fire Tournament at PORPROV Bali, KONI BALI

November 2022

Led the Badung Regency team as captain and achieved 2nd place, demonstrating leadership, teamwork, strategic thinking, and decision-making under pressure.

2nd Winner, Free Fire Tournament at KEJURPROV Bali, ESI BALI

October 2022

Led the Badung Regency team as captain and achieved 2nd place, demonstrating leadership, teamwork, strategic thinking, and decision-making under pressure.

SKILLS

Language: Indonesian (Native), English (A2), TOEIC (405)

Technical: Exploratory Data Analysis, Data Annotation, Generate 3D with polycam, Forecasting, Modelling.

Soft Skill: Time Management, Collaboration, Emotional Intelligence, Adaptability, Problem Solving, Leadership.

Interest: Data Analyst, Data Scientist, AI Engineer, Machine Learning Engineer.
